# Hossam Sabry

### Laravel full stack | React developer

Giza . Egypt    +20 1552410690    @hossam-sapry-0332b3192/    hossamsabry006@gmail.com    @hossam-sapry-0332b3192

## About

At first, I built more than one project using **Laravel** and built the views using **Blade** provided by **Laravel**. After that I learned **React** and was able to build more than one website using **Laravel** as a **Backend** for making **APIs** and **React** as a **Frontend**.

## Technical Skills

- Programming:              PHP, JavaScript, C++
- Frameworks / Libraries:   Laravel, React, Bootstrap, Ajax
- Databases:                SQL
- Tools:                    Git, GitHub

## Projects

**Ticketing System:**                              https://cinema-tickets-app.al-manara.io/home

Cinema tickets is a website for booking movies in the theater you need with online payment. there is v.2 I built it with react with new color theme

**Management System**:                             https://github.com/hossam20sabry/food-solidarity

Food solidarity is my graduation project and it's for manage donations that donors give, and choose the suitable charity for that donation, and the charity distribute it.

**Gallery app:**                              https://al-manara.io/

Almanara is a website for showing all travel offers with knowing all travel program details and contacting our team to book the travel.

**E-commerce:**                              https://github.com/hossam20sabry/hedma

Hedma is an e-commerce website that enables you to choose any clothes and buy it online with secure payment or cash on delivery.
