About

At first, I have built many web applications using **Laravel** depending on **MVC** structure that provided by **Laravel**. After that I learned **React** and was able to build websites using **Laravel** as a **Backend** for making **APIs** and **React** as a **Frontend**. Recently, I started using Livewire to improve my skills.

Technical Skills

- | | |
|---------------------------|---|
| - Programming: | PHP, JavaScript, C++ |
| - Frameworks / Libraries: | Laravel, React, Bootstrap, Ajax, livewire |
| - Databases: | MySQL |
